

WELCOME TO

# Cracking Phenomena in Welding and Additive Manufacturing 2025

Join this 5th international conference where international experts unite to discuss cracking phenomena associated with welding and additive manufacturing. Welcome to us at University West in Trollhättan on 12th–14th March 2025!

## Call for papers and registration opening

**We invite authors** to submit original scientific work or descriptions of industrial applications which are unpublished or not simultaneously submitted to another journal or conference.

You are welcome to submit one or more papers within the scope of cracking, and not limited to:

- Solidification and liquation cracking
- Ductility-dip cracking
- Reheat and stress-relief cracking
- Hydrogen-induced cracking
- Weldability testing, simulation and modeling, measurement and quantification, and remedial measures.

The full papers will be peer-reviewed and published by Springer in the form of a book proceedings.

## Important dates

**Registration opens:** 7th July 2024

**Abstract submission:** 7th July 2024 – 29th November 2024

**Notification of abstract acceptance:** 13th December 2024

**Conference dates:** 12th–14th March 2025

**Full paper submission:** 30th April 2025

## Stay updated!

We will continuously update the conference program as presenters, lectures and workshops are ready.
